

## DISC and Career Preferences

Our behavior preferences can align with our career or challenge it. Below are some common career preferences in the model. Keep in mind successful people understand and adapt their style to realize their vision, achieve mission, live values and reach goals. The degree to which you land in **D (Dominance)** **I (Influence)** **S (Steadiness)** **C (Conscientious)** can influence how you show up and what type of work takes more or less energy.

If you want to move up, out or on in your career take the DISC assessment for yourself. I offer a DISC program. It includes your personalized DISC report and 2 coaching/consulting calls. Call to sign up.

*THE SCOOP, an e-letter from [www.brainstormingalamode.com](http://www.brainstormingalamode.com), provides ideas and inspiration to enhance creativity, effectiveness, and positivity at work and on teams.*
